

EAGLE LOC 900™

INTERNAL JOINT RESTRAINT SYSTEM

Better Engineered than Traditional Restraints

	EAGLE LOC 900	CONCRETE THRUST BLOCKS	EXTERNAL RESTRAINTS	OTHER INTERNAL RESTRAINTS
Reduces labor up to 30 times	✓	∅	∅	∅
Requires no tools, rods, clamps, bolts or splines	✓	∅	∅	∅
Installs with a snap	✓	∅	∅	∅
Allows for less digging and smaller-diameter steel casings	✓	∅	∅	✓
Doesn't interfere with existing infrastructure or future digs	✓	∅	∅	✓
Prevents corrosion	✓	∅	∅	✓

Horizontal Directional Drilling

EAGLE LOC 900 DRIVES COSTS DOWN!

- Allows for placement in areas with high water tables and acidic soils.
- Fits in tight, hard-to-reach areas where other utility lines are present.
- Minimizes labor-intensive open-cut digging and trenching.
- Eliminates the need to pre-fuse the entire length of pipe.
- Minimizes disruption in congested urban environments.
- Allows for assembly during the pull-back operation.

Meets AWWA C900, ASTM D1784 and UNI-B-13 Million Cycle Test.
