## EAGLE LOC 900™ INTERNAL JOINT RESTRAINT

Strong enough to lift this 54,000-pound D7 Dozer!

We're so confident in our new internal joint restraint system, we put it to the test. Eagle Loc 900 easily suspended this bulldozer off the ground, proving it's one of the strongest restraints available. Trust Eagle Loc 900 as the easy-to-install, labor-saving, cost-effective alternative to external joint restraints ... the long-term solution to your infrastructure challenges.
