### J-M MANUFACTURING BOOTH WINS BEST OF SHOW AT 2006 AWWA ANNUAL CONFERENCE AND EXHIBITION IN SAN ANTONIO

#### *JMM's Trade Show Booth Receives The Silver Best Of Show*

Livingston, NJ – June 21, 2006 – J-M Manufacturing Company (JMM), the largest producer of plastic pipe in the world, was honored with the Silver Best of Show award at this year's AWWA Annual Conference and Exhibition, held in San Antonio, Texas. Winners were announced on Monday, June 12<sup>th</sup>, at the Exhibitor & Advertiser Reception. Representatives from a variety of companies served as judges to determine the 7<sup>th</sup> Annual Best of Show award recipients. Booths were evaluated based on the display of basic and educational information, showmanship and originality of design.

JMM's booth displayed a variety of plastic pipe products, including polyvinyl chloride (PVC), polyethylene (PE) and cross-linked polyethylene (PEX) tubing. In addition, JMM debuted a new product at the show, the EverHold™ Pipe System featuring BullDog™ Joint Restraint Technology. Unlike traditional external joint restraints, this innovation restrains the joint from the inside, as opposed to outside of the pipe. The humanitarian efforts of JMM were also represented at the booth through an "Initiative Wall" which displayed photos of various philanthropic projects, such as JMM relief efforts for Hurricane Katrina, involvement in a Habitat for Humanity Development project and work with Engineers Without Borders to build a water irrigation system to villages in Thailand.

J-M Manufacturing Company, Inc. was formed in 1982 with the acquisition of eight pipe production facilities. Today, the company operates out of 14 manufacturing plants across the United States, with headquarters in Livingston, New Jersey. JMM produces water, sewer, solvent weld, electrical conduit, ABS and polyethylene pipe in diameters ranging from ½" to 48" for PVC and ½" to 63" in HDPE. JMM is dedicated to developing the plastic pipe market by offering superior products, unparalleled quality, and ensuring that its business makes a positive contribution to the environment, the communities it serves, its customers, and employees. For additional information, visit J-M Manufacturing on the web at [www.jmm.com](http://www.jmm.com).
