## sTANDARD PERFORATION PATTERN FOR EAGLE CORR PE ${ }^{\text {m }}$ *

## STANDARD PERFORATION PATTERN

JM Eagle manufactures its Eagle Corr PE pipe in accordance with AASHTO M252 and M294 perforation patterns and requirements. Eagle Corr PE pipe diameters 4 inch through 10 inch ( 100 mm to 250 mm ) conform to AASHTO M252 Class II (slot) perforation patterns while 12 inch through 60 inch
(300 mm to 1500 mm ) diameters conform to AASHTO M294 Class I (circular). The perforations are made in the valley of the pipe corrugations. The perforation type, dimension, number of rows, pattern and nominal water inlet area can be found in Table 1 below.

Table 1

| AASHTO PERFORATION PATTERN |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| NOMINAL ID IN (MM) | CLASS | PERFORATION TYPE | LENGTH OR DIAMETER IN (MM) | WIDTH <br> IN (MM) | $\begin{gathered} \text { NO. OF } \\ \text { ROWS OF } \\ \text { PERFORATIONS } \end{gathered}$ | PERFORATION PATTERN | NOMINAL WATER INLET AREA (IN^2/FT) |
| 4 (100) | Class II | Slot | 0.984 (25.00) | 0.118 (3.00) | 3 | A | 6.46 |
| 6 (150) | Class II | Slot | 0.984 (25.00) | 0.118 (3.00) | 3 | A | 5.36 |
| 8 (200) | Class II | Slot | 1.181 (30.00) | 0.118 (3.00) | 3 | A | 5.17 |
| 10 (250) | Class II | Slot | 1.181 (30.00) | 0.118 (3.00) | 3 | A | 3.89 |
| 12 (300) | Class I | Circular | 0.375 (9.53) | - | 6 | B | 4.10 |
| 15 (375) | Class I | Circular | 0.375 (9.53) | - | 6 | B | 3.07 |
| 18 (450) | Class I | Circular | 0.375 (9.53) | - | 6 | B | 2.57 |
| 24 (600) | Class I | Circular | 0.375 (9.53) | - | 8 | C | 3.42 |
| 30 (750) | Class I | Circular | 0.375 (9.53) | - | 8 | C | 2.73 |
| 36 (900) | Class I | Circular | 0.375 (9.53) | - | 16 | D | 4.10 |
| 42 (1050) | Class I | Circular | 0.375 (9.53) | - | 16 | D | 4.10 |
| 48 (1200) | Class I | Circular | 0.375 (9.53) | - | 16 | D | 4.10 |
| 60 (1500) | Class I | Circular | 0.375 (9.53) | - | 16 | D | 2.73 |
