

# THE COMPLETE MANUFACTURER OF **PLASTIC PIPE**

## COMPANY FACT SHEET

### ■ DESCRIPTION

JM Eagle™ is the world's largest and most complete manufacturer of plastic pipe — an innovative leader that combines advanced technology with superior customer service to create the industry's most sophisticated and diverse products. Formed in 2007 via the merger of J-M Manufacturing and PW Eagle, the company is privately held.

JM Eagle is the only manufacturer to offer a 50-year warranty on its thermal-engineered plastic-pipe products. See full details at [www.jmeagle.com](http://www.jmeagle.com).

JM Eagle ships its full range of products to international destinations, including countries in North and South America, and is opening two manufacturing plants in China in 2012.

### ■ CORPORATE HEADQUARTERS

Los Angeles, California (Global Headquarters)

Livingston, New Jersey (Regional Office)

### ■ NUMBER OF EMPLOYEES

More than 1,000.

### ■ JM EAGLE MANUFACTURING PLANTS

Adel, GA

Batchelor, LA

Butner, NC

Cameron Park, CA

Columbia, MO

Fontana, CA

Guanajuato, Mexico

Hastings, NE

Kingman, AZ

Magnolia, AR

Meadville, PA

McNary, OR

Perris, CA

Pueblo, CO

Stockton, CA

Sunnyside, WA

Tulsa, OK

Visalia, CA

Wharton, TX

Wilton, IA

### ■ CORPORATE SOCIAL RESPONSIBILITY

JM Eagle brings clean water to communities in developing countries, believing it is one of the essential needs to effectively address illness and poverty around the world.

JM Eagle brought clean drinking and irrigation water to more than 13,500 people in western Senegal. The Earth Institute, JM Eagle, Millennium Villages and the Senegalese government connected 63 villages to a new water infrastructure in that region via nearly 70 miles of new plastic pipe with over 80 taps.

Recently, JM Eagle donated an additional 277 miles of plastic pipe to improve access to clean water for more than 110,000 people at sites in Ghana, Mali, Rwanda, Uganda, Tanzania, Malawi and Kenya.

# PRODUCTS

## ■ PVC

### Waterworks

*Used in distribution, municipal water systems, sanitary sewage, and non-pressure applications for sewer and storm drain.*

### Irrigation & Plumbing

*Used in irrigation, rural water systems, plumbing, drainage, waste and vent applications.*

### Well Casing & Drop Pipe

*Used in irrigation, domestic, municipal, industrial and dewatering applications.*

### Electrical

*Used in power, telephone and other electrical duct services.*

## ■ PE

### Drainage

*Corrugated pipe used in gravity flow water systems, storm sewers and engineered construction.*

### Water & Sewer

*Used in municipal and industrial water transmission systems, and in irrigation and geothermal applications.*

### Gas

*Used for fuel gas in distribution, as well as oil and gas gathering.*

## ■ PEX

*Tubing used for plumbing, radiant heating and agricultural applications.*

## ■ ABS

*Used for potable-water, slurries and chemicals, as well as drainage in residential settings.*
