plastpro, inc. PF FRAMES plastpro, inc. PF FRAMES plastpro, inc. PF FRAMES plastpro, inc. PF FRAMES plastpro, inc. PF FRAMES plastpro, inc.

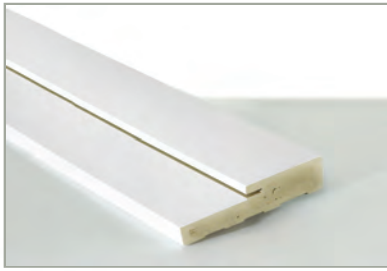

PF Frames<sup>TM</sup> from Plastpro, Inc. are an innovative new alternative to traditional wood door frames. After extensive research and development, Plastpro has formulated a poly-fiber doorframe system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot, and insect resistant. This unique formulation means that Plastpro's PF Frames<sup>TM</sup> will not absorb moisture and will never warp, splinter, or rot. And the advanced PF Frames<sup>TM</sup> system can be machined the same way as traditional wood frames with no added hassles. Plastpro's PF Frames<sup>TM</sup> guarantee a long-lasting, rot-free entryway that will maintain its integrity today, tomorrow, as well as years down the road.

## FEATURES & BENEFITS

- Closed cellular structure ensures doorframe & molding will not absorb or wick moisture, and prevents warping, rotting, and splitting.
- More screw-holding power than wood.
- Rigid poly-fiber formulation eliminates the need for an aluminum support channel.
- Easily machined just like traditional wood doorframe.
- Available in various lengths.

LIMITED  
LIFETIME  
WARRANTY

- White capped frames have a smooth finish that can be installed without being painted, but still can be painted to match any exterior door surface.

- Embossed frames contain a deep, rich oak grain that can be stained to match Distinction™ fiberglass woodgrain door.
